

BennuBio, Inc.

6610 Gulton Court NE
Albuquerque, NM 87109

Biotechnologist

About the Company

BennuBio® is a young and rapidly growing biotechnology company based in Albuquerque, NM. Our proprietary instrument, the Velocity™, is an ultra-high throughput flow cytometer that uses acoustic standing waves to focus the particle streams. It can analyze large particles such as spheroids and organoids and is particularly suited to rare events analysis on large sample volumes. The Velocity™ has applications in every aspect of biomedical research, drug discovery and process monitoring.

About the Team

The BennuBio Applications Team is responsible for the development, implementation, and validation of assays on the Velocity platform using both in house and customer supplied sample materials.

About the Job

Working in our BSL2 lab, the Biology Technologist will be required to operate and troubleshoot the Velocity instrument as well as operate a variety of other standard lab equipment.

Responsibilities include:

- Perform cell culture of single cells and multicellular spheroids.
- Implement and test of a wide variety of fluorescence-based flow cytometry assays.
- Analyze data in a variety of formats.
- Maintain complete and detailed data records.
- Attend regular team meetings and planning sessions.
- Adhere to strict lab protocols for safety and best practices.

Qualifications

- Bachelors' degree in biology, biotechnology, or related field.
- Ability to thrive in fast-paced environment.
- Ability to work well with a team.
- Experience with mammalian cell culture preferred but not required.
- Flow cytometry experience a plus.

Benefits

- Competitive salary.
- Competitive health, dental and vision insurance.
- Paid time off.
- 401(k)
- A fun, exciting, collaborative work environment with cutting edge technology.

Other Info

BennuBio is only considering applicants who have valid authorization to work in the U.S., in this position, for the Company. BennuBio does not sponsor employment-based visas for this position.

How to Apply
